FISCAL ANALYSIS

ASSUMPTION

Officials at the Office of Prosecution Services and the Department of Social Services did not respond to **Oversight's** request for fiscal impact.

Officials at the **Office of the State Public Defender (MSPD)** assume the proposed legislation would provide for prosecuting attorneys to collect MSPD debt at a cost of 20% to the Public Defender System. MSPD has recently sought out private collection agencies to collect outstanding Public Defender fees. It was determined that the population of public defender clients as a whole are paying what can be paid. Private collection agencies declined to take on MSPD debt as they believed MSPD would not see any increase in the total amounts collected. If collections would not increase, the cost would be 20% of the collections or approximately \$300,000 to MSPD. In addition, in many instances the prosecutor would have a conflict of interest in trying to collect fees on one public defender case, while the same client may have other cases pending where the prosecutor is prosecuting the client.

Oversight assumes the additional revenue in any given year is unknown for MSPD. This revenue is then transferred out and will eventually net to zero. Therefore, Oversight will show a \$0 net impact overall for this proposal.

Officials at the **Office of the State Courts Administrator** assume the proposed legislation modifies provisions relating to county prosecuting attorneys. There may be some impact but there is no way to quantify that currently. Any significant changes will be reflected in future budget requests.

Officials at the **Office of the Secretary of State** and the **Department of Revenue** each assume no fiscal impact to their respective agencies from this proposal.

Officials at the **City of Columbia, St. Louis County**, the **St. Louis County Board of Election Commission**, the **Kansas City Board of Election Commission** and the **City of Jefferson** each assume no fiscal impact to their respective organizations from this proposal.

Officials at the following boards of election commissions: St. Louis City Board of Election Commission, Clay County Board of Election Commission, Jackson County Board of Election Commission and Platte County Board of Election Commission did not respond to **Oversight's** request for fiscal impact.

FISCAL DESCRIPTION

This act provides a method for the governing bodies of two or more contiguous counties in a judicial circuit to join together to form a prosecutorial district and share a district attorney upon the adoption of a resolution or charter amendment and the approval of a joint agreement. Additional counties in the judicial circuit may join a prosecutorial district by the consent of each county participating in the district. The election to join a prosecutorial district is irrevocable. The district attorney for a multi-county prosecutorial district is to be elected to an initial two-year term at the 2016 general election, and to four-year terms starting in 2018.

The governing body of a county in a single-county judicial circuit may convert the office of prosecuting attorney to a district attorney office by resolution or charter amendment. In a single-county circuit, the prosecuting attorney must immediately begin performing the additional duties required of a district attorney upon approval of the resolution or the amendment, but the election for the new district attorney position will not occur until the next regular election. This act repeals a provision of law requiring prosecuting attorneys to represent the state in appeals of misdemeanor cases and a provision allowing counties to make their part-time prosecutor position a full-time position.

FISCAL DESCRIPTION (continued)

In addition to the duties required by current law for prosecuting attorneys, district attorneys must prosecute all juvenile cases in the district, represent state agencies in debt collection cases, and provide at least six hours of continuing education to police officers. Unless there is a different agreement, the district attorney retains 20 percent of all debt collected on behalf of state agencies with one-half of the fee to go to the Missouri Office of Prosecution Services Fund and one-half to go to the county treasurer of each county in the district on a pro rata basis.

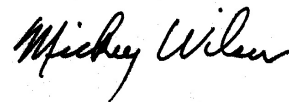

Under this act, district attorneys must receive compensation equal to that of a circuit judge, which is prorated among the counties. This act provides that part-time prosecuting attorneys can be compensated according to the assessed valuation scale provided under current law or they may receive half the compensation of a full-time district attorney if the part-time prosecutor represents the juvenile officer in all juvenile court cases.

Current law provides that \$2,000 of a prosecuting attorney's salary is payable only if the prosecutor has completed at least 20 hours of classroom instruction each calendar year. This act provides that \$10,000 of the salary is payable only if the prosecutor has completed at least 30 hours of instruction.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
