## FISCAL ANALYSIS

### ASSUMPTION

Officials from the **State Tax Commission** and the **Department of Revenue** each assume the current proposal would not fiscally impact their respective agencies.

Officials from the **County of St. Louis** state that there are too many unknowns to hazard a guess in regards to what taxes may be generated for a new political subdivision. In addition, the county states that there would be administrative costs associated with adding a new political subdivision to their assessment database.

**Oversight** assumes this proposal is in regards to the assessment timing, as opposed to the costs related to adding the political subdivision in general. For fiscal note purposes the cost of this legislation will be shown as zero for local governments.
