FISCAL ANALYSIS

ASSUMPTION

Oversight was unable to receive some of the agency responses in a timely manner due to the short fiscal note request time. Oversight has presented this fiscal note on the best current information that we have or on prior year information regarding a similar bill. Upon the receipt of agency responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval of the chairperson of the Joint Committee on Legislative Research to publish a new fiscal note.

Officials at the **Department of Elementary and Secondary Education** and **Kansas City Public Schools** each assume there was no fiscal impact from this proposal.

Oversight notes this proposal requires an objective test or measure be used to determine if a youth athlete has suffered a concussion. The Department of Health and Senior Services (DHSS) is currently charged with providing information regarding concussions to state activities associations. According to DHSS's website they provide information to the Missouri State High School Activities Association and the National Federation of High School Activities Association.

The Missouri State High School Activities Association (MSHSAA) is the largest organizer of public school sports in Missouri. The MSHSAA provides information to all schools regarding concussions, treatment of concussions and information regarding the removal of a student with a possible concussion. **Oversight** assumes this objective test or measure could be implemented within the current information distributed by MSHSAA to the school districts. Oversight assumes this proposal would not have a fiscal impact to the state or school districts.

FISCAL IMPACT - Small Business

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
