FISCAL ANALYSIS

ASSUMPTION

Officials at the **Office of Administration Division of Budget and Planning** (**B&P**) assume this proposal will not impact Total State Revenues as it changes an intersectional reference and imposes 7.275% cap on the combined rate of local sales taxes for all tax years effective January 1, 2020. There are 27 jurisdictions with a combined rate above the cap with one in the Kansas City area and 26 in the St. Louis region. This may impact the calculation under Article X, Section 18(e), as a cap on local tax rates could limit local tax revenues. BAP defers to the DOR for more specific estimates on any revenue impact.

Officials at the **Department of Revenue** (**DOR**) assume for all tax years beginning on or after January 1, 2020, this section places a cap of 7.275% on the total combined rate of local sales tax that may be imposed by a taxing jurisdiction.

Placing a cap of 7.275% on the combined rate of local sales taxes would mean that the top rate of combined state and local tax would be 11.50% (4.225% + 7.275%). Currently, twenty-seven jurisdictions impose local sales taxes above 7.275%. Twenty-six are CIDs and TDDs in St. Louis with a tax rate of 7.455%. The other is in the Kansas City Zoological District at 7.375%. In calendar year 2017, the amount of total taxable sales for the twenty-seven jurisdictions was \$263,452,586.54. At the current tax rates imposed by the jurisdictions, the taxes collected came to \$30,768,627.93.

Since the proposed legislation does not enact a grandfather clause for the jurisdictions whose combined rate of local sales tax exceeds 7.275%, the Department assumes that these jurisdictions would be required to reduce their rates accordingly. Therefore, the total amount of taxes collected for the twenty-seven jurisdictions would be \$30,297,047.80 (\$263,452,589.54 x 11.50%). This is a reduction of \$471,580.14 (\$30,768,627.93 - \$30,297,047.80) to Total State Revenue.

The Department retains 1% for collections costs. Therefore, there would be a negative impact to General Revenue in the amount of \$4,715.80, and a negative impact to the jurisdictions in the amount of \$466,864.34 (\$471,580.14 - \$4,715.80).

*None of these jurisdictions impose a use tax that exceeds the proposed cap.

Oversight currently does not have the data or resources available to produce independent revenue projections, therefore Oversight uses the same assumptions for revenue growth as the FY 2020 Consensus Revenue Estimate (CRE) for revenue growth in all future years. The CRE assumes an increase in net general revenue collections of \$192.6 million for FY 2020.

Oversight notes pursuant to §143.011 - §143.022 (SBs 509 & 496 2014) if the previous fiscal year's net general revenue collections exceed the highest net general revenue collections of the three previous fiscal years by at least \$150 million, then there will be a reduction in the individual income tax rate by one-tenth of a percent and a reduction for individual income tax filers of 5% of "business income." These reductions will reduce net General Revenue collections by an estimated \$160.0 million annually. Oversight notes the proposed legislation may impact future net revenue collections and could impact future triggering of the rate reductions required under §143.011 - §143.022.

Officials at the **City of St. Louis** assume that based on the language of this bill stating that the combined tax rate includes both the state sales tax and all local sales taxes that this proposed legislation would place a cap on the total combined rate of sales taxes for any given taxing jurisdiction of 7.275% beginning January 1, 2020. The current combined sales tax rate in the City of St. Louis (excluding the School Board which is a separate taxing jurisdiction) is 9.013%. Thus the proposed legislation would result in a serious reduction in the sales tax rate already in effect in the City. The legislation does not specify how this rate reduction is to occur nor to which of the dedicated sales tax rates the reduction will be applied. Based on an FY 2019 estimate of \$39.4 million for each 1 cent in sales tax, the prescribed reduction of 1.738 cents would reduce sales tax receipts by an estimated \$13.7 million annually. This would bring the total estimated loss of City revenue to over \$82 million per year or over 36% of current estimated sales and use tax receipts. With an effective date of January 1, 2020 approximately $\frac{1}{2}$ of this loss would be incurred beginning in FY 2020 with the first full year impact beginning in

FY 2021. A loss of revenue of this magnitude would seriously impact the ability of the City to provide public safety services, capital improvements and other services funded with current sales and use tax receipts. (Note: These estimates do not include special business districts or TIF allocations which may also be negatively impacted by the proposed legislation.)

Oversight assumes the proposal limits the combined local sales tax rates only (not state and local rates combined), to 7.275%. Therefore, since the City of St. Louis' stated local rate is 4.788%, Oversight will not utilize their revenue loss estimates.

FISCAL IMPACT - Small Business

This legislation will have an impact on small businesses by placing a cap on the amount of local sales tax that may be imposed. The amount of local sales tax imposed shall not exceed 7.275%. Businesses located within a jurisdiction with a total combined local sales tax rate that exceeds 7.275% will have to make the necessary system updates and adjustments in order to comply with the provisions of this legislation.

FISCAL DESCRIPTION

For all tax years beginning on or after January 1, 2020, this act places a cap of 7.275% on the combined rate of local sales taxes for any given taxing jurisdiction, provided that transient guest taxes shall not be considered local sales taxes.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
