FISCAL ANALYSIS

ASSUMPTION

§21.900 - Joint Committee on Agriculture

Officials from the **Missouri Senate (SEN)** state it is anticipated this proposal will have a negative fiscal impact to the Joint Contingent appropriation as a result of meetings of the Joint Committee on Agriculture. The cost to reimburse travel expenses for ten (10) members of the general assembly to attend committee meetings is approximately \$1,000 per meeting (\$982, rounded up).

Oversight notes Joint Committees generally meet from two to four times per year based on statutory requirements. This proposal does not mandate the number of times the Joint Committee on Agriculture is required to meet. Therefore, Oversight will range costs to the Joint Contingent fund from \$2,000 to \$4,000 annually.

In response to a previous version, officials from **Legislative Research (LR)** assumed this proposal will result in no additional costs.

Oversight does not have any information to the contrary. Therefore, Oversight will reflect no fiscal impact for LR for fiscal note purposes.

§192.300 - Agricultural operations and county health ordinances

In response to the previous version of this proposal, officials from **St. Louis County** and the **Columbia/Boone County Department of Public Health and Human Services** each assumed the proposal would have no fiscal impact on their organization.

Oversight does not have any information to the contrary. Therefore, Oversight will reflect no fiscal impact for the St. Louis County and Columbia/Boone County Department of Public Health and Human Services for fiscal note purposes.

Section 1 - Application setback for liquified manure

Oversight notes in response to similar legislation from the current session where there has been promulgation of rules language, officials from the **Joint Committee on Administrative Rules (JCAR)** have stated “the legislation is not anticipated to cause a fiscal impact to JCAR beyond its current appropriation.” Therefore, Oversight assumes these provisions will not result in a fiscal impact to JCAR.

ASSUMPTION (continued)

Bill as a whole

Officials from the **Office of the Secretary of State (SOS)** assume many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could require additional resources.

Officials from the **Department of Agriculture**, the **Department of Health and Senior Services**, the **Department of Natural Resources** and the **Missouri House of Representatives** each assume the proposal will have no fiscal impact on their respective organizations.

Oversight notes that the above mentioned agencies have stated the proposal would not have a direct fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note for these agencies.
