FISCAL ANALYSIS

ASSUMPTION

Due to time constraints, **Oversight** was unable to receive agency responses in a timely manner and performed limited analysis. Oversight has presented this fiscal note on the best current information that we have or on information regarding a similar bill(s). Upon the receipt of agency responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval of the chairperson of the Joint Committee on Legislative Research to publish a new fiscal note.

In response to a previous version, officials from the **Office of the State Treasurer (STO)** stated that total state revenue will decrease because linked deposit loans earn less in interest than other options that the State Treasurer has to invest in as a result of this proposal.

The current activity for the Linked Deposit Program is as follows:

Small Business Program	\$256,644,377
Job Enhancement Program	\$ 700,000
Alternative Energy Program	\$ 0
Agriculture Program	\$190,655,584
Local Government Program	\$ 14,960,735
Multi-Family Housing Program	\$ 43,625,460
Total Active Deposits	\$506,596,156
Approved and Waiting Placement	\$ 5,285,387
Awaiting Approval	\$ 425,636
In Progress	\$ 9,935,287
Total	\$522,242,466

Fiscal Impact

39% to GR - \$688,584

61% to all other interest earning funds - \$1,077,016

Formula

Average 5 year agency bond: 3.00 callable or 2.75 bullet = Average of 2.875% the state earns

Average yield on linked deposit is .668%

Opportunity cost is 2.207% (2.875% - 0.668%)

ASSUMPTION (continued)

$\$80,000,000 (\$800,000,000 - \$720,000,000) * 2.207\% = \$1,765,600$

GR	39% x \$1,765,600 =	\$688,584;
Other	61% x \$1,765,600 =	<u>\$1,077,016</u>
Total		<u>\$1,765,600</u>

The STO stated the fiscal impact is staggered; no impact in FY 2021, half of \$1,765,600 in FY 2022, and a full impact in FY 2023.

Oversight notes the proposal increases the aggregate cap from \$720 million to \$800 million. Current law states that no more than \$110 million shall be used for linked deposits to eligible small businesses. This proposal will increase the \$110 million to \$190 million.

Oversight notes that increasing the allocation for Linked Deposits will result in a decrease to state revenue given that there are investments with higher interest rates of return that the STO could take advantage of. The interest rate environment with lending institutions will not be constant and Oversight is unable to determine the amount of businesses that would utilize the Linked Deposit program in the future. Therefore, Oversight will reflect a loss to general revenue of up to \$688,584 and a loss to other state funds of up to \$1,077,016 (STO estimate of interest lost with program being fully utilized with the additional \$80,000,000).

Oversight also notes there is potential savings to local political subdivisions if they choose to utilize the Linked Deposit Program. Therefore, Oversight will reflect an unknown positive fiscal impact to political subdivisions to the extent they avail themselves of up to \$80 million in increased linked deposit authority.

Oversight notes this increase in the Linked Deposit program may have positive benefits to the various Missouri businesses and entities that utilize the program. Oversight considers these benefits to be indirect impacts and have not reflected them in the fiscal note.

Oversight notes the Senate Committee Substitute adds changes to sections 30.260 and 30.758. Without a response from the STO, Oversight will assume the changes are permissive make the assumption that these changes will not have a fiscal impact on the state.

FISCAL IMPACT - Small Business

Small businesses could benefit from continued opportunities to participate in the linked deposit program.

FISCAL DESCRIPTION

Under current law, no more than 10% of all time deposits of state moneys can be placed with any one single banking institution. This act raises that limitation to 20% of all time deposits of state moneys.

Current law additionally outlines the manner in which the State Treasurer can determine the market rate, for purposes of the Linked Deposit Program. In addition to those provisions, this act permits the Treasurer to calculate the market rate based on current market investment indicators.

The act increases the total amount that the State Treasurer may invest in linked deposits from \$720 million to \$800 million. The act also increases the amount of that \$800 million that may be invested in small businesses from \$110 million to \$190 million.

Furthermore, the act requires the State Treasurer to give priority to the funding of renewed linked deposit applications over the funding of new linked deposit applications.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
