FISCAL ANALYSIS

ASSUMPTION

Officials at the **Department of Elementary and Secondary Education** assume this proposal will have no direct fiscal impact on their agency.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, school districts were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in our database is available upon request.

Oversight assumes that school district policies already bar the use of vapor products on campus. Oversight notes the Kansas City Public School District, Columbia Public School District and Springfield Public School student codes of conduct already bar this behavior.

This proposal makes using vapor pens an infraction, but **Oversight** notes according to the Office of the State Courts Administrator, there were only 7 cigarette smoking infractions in FY 2019, and assumes this proposal would result in an immaterial number of additional infractions being charged.

Because of a lack of contrary information, this note has a \$0 net direct fiscal impact.
