FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Elementary and Secondary Education** and the **High Point R-III School District** each assume the proposal will not fiscally impact their respective organizations.

In response to a similar bill, SB 130 (2019), officials from the **Sherwood-Cass R-VIII School District** assumed the cost to the school districts would be the loss of revenue from hosting competitions, concession sales, and miscellaneous revenues through fund-raising and other methods.

In response to a similar bill, SB 130 (2019), officials from the **Springfield Public Schools** assumed a cost of \$75,000 for administrative support to monitor eligibility and other factors for students who are not enrolled in the district and other costs that would result from expanded need for contests due to increased participation. The district has 14 schools with athletics so this would require dedicated staff time.

In response to a similar bill, SB 130 (2019), officials from the **Lee's Summit R-7 School District** assumed the proposal will have no fiscal impact on their organization as the Missouri State High School Activities Association does have guidelines and our district does allow these students to participate.

In response to a similar bill, SB 130 (2019), officials from the **Wellsville-Middletown R-1 School District** assumed the proposal will have no fiscal impact on their organization.

Oversight notes the Missouri State High School Activities Association (MSHSAA) does allow some non-traditional students to participate if they meet certain criteria including in-class seat time per the MSHSAA Handbook. Oversight notes some districts indicated a negative fiscal impact due to loss of revenue from hosting competitions, concession sales and fund-raising or administrative costs to track eligibility. Oversight will show a potential unknown cumulative fiscal impact to school districts.

Oversight assumes school compliance with the provisions in this proposal, and that they will continue to receive state funding. Therefore, Oversight will not reflect a savings to the state from reduced foundation formula spending.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other school districts were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in our database is available upon request.

FISCAL IMPACT – Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

Under this act, school districts shall not receive funding under the foundation formula if such district is a member of, or remits any funds to, any statewide activities association that prohibits a home school student from participating in any event or activity offered by the school district, or requires a home school student to attend the public school for any portion of a school day in order to participate in any event or activity.

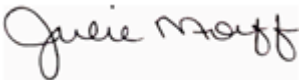

The Department of Elementary and Secondary Education is required to withhold payments to districts in violation of this act until such district proves to the State Board of Education that the school district has ceased membership in the organization.

This act further provides that a statewide activities association shall not prohibit or restrict any school district that is a member of the association from participating in any events authorized or regulated by the association with any school that is not a member of the association.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
