ASSUMPTION

Officials from the **Office of Administration**, the **Department of Commerce and Insurance**, the **Attorney General's Office**, the **Department of Natural Resources**, the **Missouri Department of Conservation**, the **Missouri Department of Transportation** and the following utilities: **Corder Water/Wastewater District**, **Lexington Water/Wastewater District**, **Little Blue Valley Sewer District**, **Metropolitan St. Louis Sewer District**, **Schell City Water Department**, **City of Springfield** and **Wayne County Pwsd** each assume the proposal would have no fiscal impact on their respective organizations.

Oversight notes that the above mentioned agencies have each stated the proposal would not have a direct fiscal impact on their respective organizations. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other utilities were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in our database is available upon request.

Oversight assumes this proposal could impact the Grain Belt Express project in northern Missouri. According to a report by the Public Service Commission (File No. EM-2019-0150), the Grain Belt Express Project line is "sited to traverse Buchanan, Clinton Caldwell, Carroll, Chariton, Randolph, Monroe and Ralls Counties, Missouri. The Grain Belt Express Project covers approximately 780 miles, and the project will primarily use a pole design which has a smaller footprint than traditional alternating current transmission lines. The structures will occupy ten acres for the entire state of Missouri." The Joint Application of Invenergy Transmission LLC, Invenergy Investment Company LLC, Grain Belt Express Clean Line LLC and Grain Belt Express Holding LLC for an Order Approving the Acquisition by Invenergy Transmission LLC of Grain Belt Express Clean Line LLC was approved by the PSC effective June 30, 2019.

Oversight notes that while there may be no direct impact to the state or local governments as a result of this proposal, modifying provisions relating to the power of eminent domain for utility purposes could have an indirect impact on current and future utility projects.
