FISCAL ANALYSIS

ASSUMPTION

Officials from the **Missouri Highway Patrol** and the **Missouri Senate** each assume the proposal will have no fiscal impact on their organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

In response to a previous version, officials from the **Office of the Secretary of State (SOS)** assume many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could require additional resources.

In response to a previous version, officials from the **Missouri House of Representatives, Joint Committee on Administrative Rules, Office of the State Public Defender, Missouri Office of Prosecution Services, and Office of the State Courts Administrator** each assume the proposal will have no fiscal impact on their respective organizations.

Oversight notes that the above mentioned agencies have stated the proposal would not have a direct fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note for these agencies.

Senate Amendment 2 – Electronic Transfer of Voter Registration

Sections 115.151, 115.160, and 115.960

In response to similar legislation, SCS for SB 654 from 2022, officials from the **Department of Revenue (DOR)** state:

The provisions for electronic transmission of voter registration application data proposed in §115.160 is a program that is already in place between DOR and the SOS. This electronic exchange program was implemented on March 14, 2022.

In response to similar legislation, SCS for SB 654 from 2022, officials from the **St. Louis County Board of Elections** assume the proposed section 115.160.3 will have the DMV electronically transfer voter registrations to the office would save 350 hours of work a year. At the lowest temporary employee salary, this would save \$13,000 annually.

Oversight notes that §115.160.3 states the Director of Revenue shall utilize electronic voter registration application forms and provide for secure electronic transfer of voter registration information to election authorities. As stated above by the St. Louis County Board of Elections there would be a savings as a result of electronic registrations. Therefore, Oversight will reflect an unknown positive impact to local election authorities in the fiscal note due to this provision.

Oversight only reflects the responses received from state agencies and political subdivisions; however, other local election authorities and county clerks were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri Legislative Information System (MOLIS) database is available upon request.
