FISCAL ANALYSIS

ASSUMPTION

Officials of the **Department of Elementary and Secondary Education** stated that the proposal could cause increases in state aid to affected school districts by increasing their average daily attendance. They also note that districts sometimes now count field trips in average daily attendance if the field trips are considered instructional activities and that some school districts may already be including activities authorized by this proposal in average daily attendance.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This proposal would allow school boards to allow, through policy, students of their districts to participate in sanctioned activities of specified organizations during the Missouri State Fair during school hours and have that participation count as regularly scheduled instruction for

DESCRIPTION (continued)

purposes of computing average daily attendance. Boards could also count sanctioned activities of those organizations outside of the state fair if board members defined the activities as part of regularly scheduled instruction.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space. This proposal would not affect Total State Revenue.
