DESCRIPTION

This act modifies licensing provisions relating to professional counselors and psychologists.

Currently, Section 337.029 outlines licensure procedures for psychologists. The incorrectly enacted version of this section is repealed. The correctly enacted version contains an additional requirement that the psychologist must hold a current Certificate of Professional Qualification from the Association of State and Provincial Psychology Boards.

Licensure requirements for professional counselors are outlined in Section 337.510. Subsection 2 of that section states that a person may obtain license reciprocity if he or she is currently licensed in another state with substantially similar licensing requirements. New language requires that reciprocity be awarded. The applicant's license must be unsuspended in addition to being unrevoked and unexpired. A new subsection 3 is also added to provide for reciprocity to any person who:

1. Previously held a valid unrevoked professional counseling license in Missouri;
2. Currently holds a valid unrevoked, unsuspended, and unexpired professional counseling license in another state.

DESCRIPTION (continued)

If the above qualifications are satisfied, then a person must be granted a license to return to this state and practice as a professional counselor. The person must follow the same application and fee procedures outlined in this section.

This act contains an emergency clause.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
