**FISCAL ANALYSIS**

ASSUMPTION (continued)

In response to earlier versions of this proposed legislation, officials from the **Department of Highway and Transportation** state they were unable to provide an estimate for this proposal. Therefore, they must rely upon the DOR for their response.

In response to an earlier version of this proposed legislation, officials from the **Missouri State Highway Patrol** assume no fiscal impact on their agency.

In response to earlier versions of this proposed legislation, officials from the **Secretary of State's Office (SOS)** stated this bill creates a personalized "God Bless America" license plate and creates a WWII Memorial Trust Fund to be established by the Department of Revenue. Based on experience with others divisions, the rules, regulations and forms issued by the Department could require as many as approximately 12 pages in the Code of State Regulations. For any given rule, roughly one-half again as many pages are published in the Missouri Register as are published in the Code because of cost statements, fiscal notes and notices that are not published in the Code. The estimated cost of a page in the Missouri Register is \$23.00. The estimated cost of a page in the Code of State Regulations is \$27.00. The actual costs could be more or less than estimated. The impact of this legislation in future years is unknown and depends upon the frequency and length of rules filed, amended, rescinded and withdrawn. The SOS estimates the cost of this legislation to be \$738. [12x\$27) + (18x\$23) = \$738]

**Oversight** assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process. Any decisions to raise fees to defray costs would likely be made in subsequent fiscal years.
